Comment. As compared with the last reported status of 1 April, coal stocks rose by 10,655 tons to a total of 253,095 tons. This quantity is adequate for about 12.8 days. Hard coal stocks increased by about 5,000 tons and now represent roughly 52 percent of total coal stocks on hand. With a few exceptions, the number of loaded railroad cars awaiting dispatch decreased to a normal level. The number of operational railroad cars slightly decreased but was still above the fixed quota of 80,000 units throughout the reported period.
